MY REF: 18666/91 T V3

Date: 6 December 2024

YOUR REF:

From: Supervising Officer, Ministry of Foreign Affairs, Regional Integration and International Trade

**To: Secretary for Public Service
Senior Chief Executive, Ministry of Health and Wellness
Senior Chief Executive, Ministry of Social Integration, Social Security and National Solidarity**

Call for Applications - 5th Cohort of the Kofi Annan Fellowship in Global Health Leadership Programme

Please find attached, for your consideration, copy of a memorandum dated 4 December 2024 from our Mission in Addis Abba, transmitting a Note (Ref: AU/CDC/PHI/NV/6446.24) dated 29 November 2024 from the Africa Centres for Disease Control and Prevention (Africa CDC), inviting senior public health professionals from African Union Member States to apply for the 5th Cohort of the Kofi Annan Fellowship in Global Health Leadership Programme, which is scheduled to commence in June 2025.

2. The Kofi Annan Fellowship in Global Health Leadership Programme was launched on 25 May 2020 in view to support aspiring public health leaders in acquiring advanced skills and competencies to strategize, manage and lead public health programmes. Successful applicants are leaders who want to acquire advanced skills in leading impactful health initiatives, employing health diplomacy, as well as enhance their ability to develop bold, strategic and achievable goals to propel Africa towards achieving Agenda 2063.

3. The eligibility criteria for the fellowship are as follows:
- be citizens of an African Union Member State;
 - possess a postgraduate degree in a relevant field in public health;
 - have 10 years of professional experience after gaining a Master's degree in any field of public health, including but not limited to Sexual and Reproductive health, one health, human medicine, finance, health economics, health policy, animal health, or environmental health;
 - be in full-time employment in any area of public health, in public or private institution in Africa; and
 - have a good track record or be able to demonstrate the potential for effective public health leadership where they can positively impact the public health outcomes of populations in Africa.
4. All applications must be submitted online together with the following supporting documents:
- A support letter from the current employer to confirm employment, guaranteeing that the candidate will be allowed enough time to participate in the Fellowship programme and to attend the full eight weeks of institutional residential experience;
 - Letters of recommendation from two reputable professional referees;
 - A leadership challenge project proposal (maximum 400 words) that outlines a potential leadership challenge project they will implement which is feasible to complete within the 12 month of the fellowship. The proposal should include a title, brief description of

the challenge (the what, the who is affected, and the why), a proposed strategy for a solution, and the expected outcome; and

- A personal statement (maximum 400 words) providing evidence of the candidate's commitment to public health in Africa detailing the following:
 - a) Their leadership experience and professional attainment;
 - b) Their vision of, and the future impact of effective public health leadership in Africa;
 - c) How they would champion public health initiatives in Africa.

5. The closing date for applications is **30 December 2024** and the link for submission of completed applications is <https://impact.africa-cdc.org/form/kaf-5> (Note that incomplete applications and applications sent over email will not be considered.)

6. In this context, it would be appreciated if the call for application could be kindly disseminated to eligible health professionals who meet the criteria as spelled out at paragraph three above.

The Africa Centres for Disease Control and Prevention - Africa CDC presents its compliments to the Permanent Mission to the African Union and has the honor to refer to the Decision Assembly/AU/Dec.554 (XXIV) adopted at the 24th Ordinary Session of the Assembly held in Addis Ababa, Ethiopia in January 2015, which established the Africa Centres for Disease Control and Prevention (Africa CDC), and approved the Africa CDC Statute; and wish to refer to Article 3(f) which emphasizes the harmonization of disease control and prevention policies, and the surveillance systems in the African Union Member States with a mission to strengthen Africa's public health institutions' capacities and capabilities.

The Kofi Annan Fellowship In Global Health Leadership Programme launched on May 25th, 2020, seeks to support aspirational public health leaders (Fellows), in acquiring advanced skills and competencies to strategize, manage and lead public health programmes that will positively transform public health in Africa. The aspiration is for Kofi Annan Public Health Fellows to emulate the exemplary leadership qualities of Secretary Kofi Annan and go on to contribute to and lead the implementation of a new Public Health Order for Africa, and in turn, develop the next generation of public health leaders.

As part of this initiative, Africa CDC has graduated its first three cohorts and is currently training the fourth cohort. The fellowship program lasts 12 months and employs a hybrid methodology that includes webinars, lectures, a leadership challenge project, and four weeks of in person residential.

On November 15, 2024, the program opened a call for applications for the fifth cohort. This application period will remain open for six weeks and will close on December 30, 2024. In this regard, Africa CDC encourages all member states to share this call for applications with qualified candidates within their health institutions. For further clarification, please contact Dr. Tiruneh Baye at tiruneha@afriacdc.org.

The Africa CDC takes this opportunity to renew to the Permanent Mission at the African Union the assurances of its highest consideration.

Safeguarding Africa's Health

KOFI ANNAN FELLOWSHIP

IN GLOBAL HEALTH LEADERSHIP

PROSPECTUS 2024

About the fellowship

The Fellowship aims to support aspirational public health leaders (Fellows) in Africa in acquiring advanced skills and competencies to strategize, manage and lead public health programmes that will positively transform public health in Africa. Fellows admitted in the programme will be senior public health professionals from African Union Member States who will contribute to and lead the implementation of a new public health order for Africa, and in turn develop the next generation of public health leaders.

As we reflect on the remarkable progress of the Kofi Annan Fellowship in Global Health

Leadership Programme, having graduated 59 Fellows from over 33 African nations and currently nurturing 25 more from 19 African countries, we witness the tangible impact of this visionary initiative. The program's alumni have not only honed their leadership qualities but are also actively shaping the future of healthcare across the continent. With fellows authoring books, creating trans national partnerships, with some replicating the program within their institutions, and one even ascending to the role of a Minister of government, the ripple effect of this leadership program is undeniable.

For Cohort 5 we continue to encourage a diversity of applicants from across the continent, and specifically for Cohort 5 **Sexual and Reproductive health and Public Mental Health Professionals** are encouraged to apply. In addition senior cadres working within government ministries and National Public Health Institutes (NPHI) are also strongly encouraged to apply. The programme is now open and accepting applications for the 5th cohort, scheduled to commence in June of 2025.

www.africacdc.org
🌐 📱 📧 africacdc

Who should apply?

The program targets aspirational leaders across the African Union member states with a background in any field of public health including, but not limited to, One Health, human medicine, finance, health policy, animal health, Sexual and reproductive health, or environmental health. Successful applicants are leaders who want to acquire advanced skills in leading impactful health initiatives, employing health diplomacy, as well as enhance their ability to develop bold, strategic and achievable goals to propel Africa towards achieving Agenda 2063.

What is included?

The Fellowship will support one year of high-level professional development in public health leadership that includes skills in health diplomacy, change management and influencing policy, among others. Fellows will be supported by experienced experts in key fields from Africa and other parts of the world.

Important dates

30	December 2024	Closing date for applications
31	April 2025	Successful applicants informed
1	June 2025	Start of the fellowship

At the end of the programme, Fellows would have developed core competencies in the following areas:

Superior skills in negotiation, health policy, partnerships, and health diplomacy, given the unique position of Africa CDC as a technical institution of the African Union.

Enhanced ability to frame and develop a viable strategic vision for ambitious yet attainable goals for health outcomes.

Improved ability to influence and empower others to achieve go-getting, multidimensional health goals.

Enhanced skills in effective communication and managing different media platforms to get vital messages across a range of agencies and contexts.

Learning with, and from, public health leaders from around the world, **enhancing personal and professional global networks.**

Strong knowledge of the key aspects of global public health history and principles; in particular, those relating to major political, economic, and social aspects of public health in Africa.

Improved ability to analyse the social, economic and political factors influencing the financing of healthcare and economic security.

Deeper insight into personal leadership and career goals, and enhanced resilience, flexibility and efficiency.

Fellowship eligibility criteria

Applicants for the Fellowship must:

- be citizens of an African Union Member State;
- possess a postgraduate degree in a relevant field in public health;
- have 10 years of professional experience after gaining a masters degree in any field of public health, including but not limited to Sexual and Reproductive health, one health, human medicine, finance, health economics, health policy, animal health, or environmental health
- be in full-time employment in any area of public health, in public or private institution in Africa;
- have a good track record or be able to demonstrate the potential for effective public health leadership where they can positively impact the public health outcomes of populations in Africa.

Fellowship selection

Fellowship Selection Selection to the Fellowship will be by an independent committee comprising of experts from the African Union Commission, Africa CDC, and their global partners. The selection process will emphasize an equal opportunity approach to secure the representation of women and underrepresented groups.

Financing

Africa CDC will provide all learning and development materials and meet all costs associated with the fellowship, including travel, daily allowance and insurance during the residential placements. Fellows will be supported to ensure that they have the relevant software for online learning.

How to apply

All applications must be submitted using the online application form. Incomplete applications will not be considered. All applicants must provide the following required information:

- A support letter from the current employer to confirm employment, guaranteeing that the candidate will be allowed enough time to participate in the Fellowship programme and to attend the full eight weeks of institutional residential experience
- Letters of recommendation from two reputable professional referees.
- A personal statement (maximum 400 words) providing evidence of the candidate's commitment to public health in Africa detailing the following:
 - Their leadership experience and professional attainment
 - Their vision of, and the future impact of effective public health leadership in Africa
 - How they would champion public health initiatives in Africa
- A leadership challenge project proposal (maximum 400 words) that outlines a potential leadership challenge project they will implement which is feasible to complete within the 12 month of the fellowship. The proposal should include a title, brief description of the challenge (the what, the who is affected, and the why), a proposed strategy for a solution, and the expected outcome.
- Completed applications with all supporting documents should be submitted through <https://impact.africa-cdc.org/form/kef-5>. Incomplete applications and applications sent over email will not be considered.

About Africa CDC

The Africa Centres for Disease Control and Prevention is an autonomous technical Agency established by the African Union (AU) to enhance the capacity, capabilities, and partnerships of Africa's public health institutions. Its primary goal is to control, prevent, detect, and respond to disease threats and outbreaks by employing science, policy, and data driven intervention and programs effectively and efficiently.

About the Kofi Annan Global Health Leadership Program

Kofi Atta Annan, the seventh Secretary-General of the United Nations, Nobel Peace Prize Laureate, and founding chair of the Kofi Annan Foundation, exemplified visionary and principled leadership over the course of his life and career. Of his numerous accomplishments was the establishment of the Global Fund for AIDS, Tuberculosis, and Malaria (The Global Fund), which changed the approach to preventing and managing infectious diseases and the practice of public health globally.

Visionary and principled leadership is critical for Africa to implement a new public health order that will enhance the timely detection and effective response to public

health threats, and to ensure Africa has a healthy and productive population. It is also critical for mitigating the economic and social effects of these health threats while contributing to sustainable achievement of Africa's Agenda 2063 and the Sustainable Development Goals. The African Union Commission launched the Africa Centres for Disease Control and Prevention (Africa CDC) Kofi Annan Global Health Leadership program on 25 May 2020 in partnership with the Kofi Annan Foundation, following its approval by the Governing Board of Africa CDC in March 2018. The Kofi Annan Global Health Leadership program encompasses the Kofi Annan Fellowship in Global Health Leadership, the Kofi Annan Scholars program and the Kofi Annan Policy forum.
