The Registrar  
Medical Council of Mauritius,  
One Way Floreal Road,  
Cite Mangalkhan

Dear Sir,

Training on Medicinal Cannabis

The Ministry of Health and Wellness has made several requests and published notices inviting Specialist Doctors and Pharmacists willing to undertake a training course on cannabis in order to be able to prescribe medicinal cannabis.

2. Request is hereby being made to invite Specialist Doctors at your level to enrol on the UK MCCS online course through this link:

<https://www.sativallearning.com/p/medical-cannabis-course>

3. Kindly note that a sponsorship would be granted to all Specialist Doctors operating in the Public Sector to enroll for the course. They would have to incur the cost to be able to follow the course. Thereafter, a refund would be made to them by the Ministry of Health and Wellness upon submission of proof of payment and certificate of attendance.

4. As regards Private Specialist Doctors, the training course would have to be followed at their own cost.

5. Upon completion of the course, the Medical Professionals would be licensed to prescribe medicinal cannabis which would start shortly.

6. It would be appreciated if needful could be done at your end with respect to the above request.

Yours faithfully,

B.A. Hossen (Mrs)  
for Ag. Senior Chief Executive
